

# Analysis of the reasons for the shrinkage of the capacitor industry

What are the key factors affecting capacitor market growth?

The market growth is attributed to the increasing demand for capacitors in various applications, such as industrial, automotive electronics, consumer electronics, energy and others. In terms of type, the ceramic capacitor segment is expected to hold the largest share of the global capacitor market during the forecast period.

What is the growth rate of the capacitor market?

The global capacitor market is expected to grow at a CAGR of 6.5% from 2018 to 2030. The market growth is attributed to the increasing demand for capacitors in various applications, such as industrial, automotive electronics, consumer electronics, energy and others.

How competitive is the capacitor market?

The market is competitive with the presence of various large-scale manufacturers in the market across the globe. The capacitor market has long-standing established players who have made significant investments. These companies leverage strategic collaborative initiatives to increase their market share and profitability.

What is capacitor market research?

It examines the major component product groups within the capacitor industry and indicates their relative importance in the total capacitor market and also their individual development trends.

What is the future of the capacitor market?

Publisher: Lucintel Publication date: Get it in 2 weeks by ordering today. The future of the capacitor market looks promising with opportunities in the computer, telecom, consumer electronics, automotive, and industrial sectors. The global capacitor market is forecast to reach \$31.2 billion by 2027 with a CAGR of 5.9% from 2021 to 2027.

How big is the capacitor market?

The global capacitor market is forecast to reach \$31.2 billion by 2027 with a CAGR of 5.9% from 2021 to 2027. The major drivers for this market are increasing demand for consumer electronics products, growing demand for premium smartphones, and increasing production of electric vehicles.

Along with the growing of population and social and technological improvements, the use of energy and natural resources has risen over the past few decades. The ...

For the period 2015-2026, the report provides country-wise revenue and production capacity analysis and region-wise revenue and volume analysis of the global Electric Capacitors ...

# Analysis of the reasons for the shrinkage of the capacitor industry

This market report covers trends, opportunities and forecast in the global capacitor market to 2030 by end use industry (telecom, computers, consumer electronics, automotive, industrial, and ...

The choice of capacitors is of major importance because one of the most frequent causes of the equipment breakdowns results from the failure of capacitors, and will therefore ...

The new report from Blackridge Research on Global Capacitor Market comprehensively analyses the Capacitor Market and provides deep insight into the current and future state of the ...

Another surprising finding is the significant percentage of shrink that is due to paperwork and operational errors (17.8 percent) and system issues (6.9 percent). Typically, ...

Capacitor Industry Report . Statistics for the 2024 Capacitor market share, size and revenue growth rate, created by Mordor Intelligence(TM) Industry Reports. Capacitor analysis includes a market forecast outlook to for 2024 to 2029 and ...

Capacitor Failure Modes ... The pros, cons, and limitations of various destructive and non-destructive analysis techniques are also discussed, along with some of the issues surrounding ...

Based on historical analysis (2019-2023) and forecast calculations (2024-2030), this report provides a comprehensive analysis of the global Capacitor market, including market ...

This article sets out the existing position in world markets of the capacitor industry and discusses its development both technically and commercially over the next few years.

Statistics for the 2024 Capacitor market share, size and revenue growth rate, created by Mordor Intelligence(TM) Industry Reports. Capacitor analysis includes a market forecast outlook to for 2024 to 2029 and historical overview.

Statistics for the 2024 Capacitor market share, size and revenue growth rate, created by Mordor Intelligence(TM) Industry Reports. Capacitor analysis includes a market forecast outlook to for ...

In 2023, the Nigerien capacitor market decreased by -92.6% to \$549K, falling for the second consecutive year after three years of growth. In general, consumption recorded a ...

The Eq. 1 is based on the results of the accelerated testing of numerous Solid Electrolytic Tantalum capacitors from different manufacturers with different values of ...

The radial type was initially developed for use in the electrolytic capacitors industry. The technology is now being used across a wide range of applications due to its inherent benefits ...

# Analysis of the reasons for the shrinkage of the capacitor industry
