

Battery appliances after power outage

Can you hook up a refrigerator battery if a power outage?

You can hook up the battery immediately when there is a power outage, but make sure the battery backup has enough capacity to handle the refrigerator's running and starting wattage. If your refrigerator draws around 500W per hour running and has a 1500W starting wattage, you can go with Jackery Solar Generator 1000 Plus.

How much power does a refrigerator need for a 3 day outage?

If you want to cover a 3-day outage, your total power needed for the refrigerator is 10.8 kWh (3.6 kWh/day x 3 days). Choose a battery with a capacity that can handle your calculated power needs. Consider the Depth of Discharge (DoD), indicating the percentage of a battery's capacity that can be used.
