

Battery output port installation video tutorial

How do I install the power magic battery pack?

Installation Tutorial: Fix the Power Magic Battery Pack in place. We recommend attaching it to the side of the passenger side footwell (see step 5). Use the supplied Velcro strips and/or screws to fix the product in place. Note: Velcro strips cannot be attached to fabric material. Plug the DC in power cable into the battery pack's "DC in" port.

How do I hardwire my ultra battery?

For a hardwired installation using a hardwiring power cable: a. Plug the hardwiring power cable into the Ultra Battery's DC in port. b. Referring to your vehicle Owner's Manual, identify a Switched (accessory power) fuse of more than 10A in your interior fuse panel. Typical examples are the cigarette lighter and car stereo fuse slots.
