

Branded battery replacement prices are high

How much does a car battery replacement cost in the UK?

Having a car battery replaced professionally in the UK typically costs in the range of £162 to £460, including both the battery and labour installation costs, with prices varying significantly depending on the type of service center.

How much does a car battery cost?

1. Car model and make - Different cars have different battery specifications. Luxury or high-performance vehicles may require specialised (and usually more expensive) batteries to run properly. 2. Battery type - From £50 to £150, standard lead-acid batteries are generally the most affordable replacement option.

Why are car batteries so expensive?

Many car owners are surprised by the high cost of car batteries. Several factors contribute to their high cost. One major factor is the quality of materials used in manufacturing these batteries. High-quality materials ensure that they have a longer lifespan and are more reliable than cheaper alternatives.

Are car dealerships a good place to buy a new battery?

Car dealerships offer new and refurbished batteries, as well as professional installation services. While dealers' prices may be higher, mechanics' brand-specific knowledge, extended warranties, and technical expertise make them a go-to vehicle battery replacement.

Where can I buy a replacement car battery?

This means that the competition is quite strong--the replacement battery doesn't have to be labelled as a main dealer only part, and you can quite literally pick up car batteries from a wide range of outlets: high street automotive accessory stores, independent motor factors, main dealers, and of course, the independent workshop.
