

# Can you make money by installing solar panels on your roof

Can you get free solar panels on a roof?

Companies offered to pay to lease your roof from you for 20-25 years and, in exchange, would install and maintain solar PV panels on it. You didn't have to pay upfront for the panels, and would also benefit from the free electricity produced by the system. But there are very few free solar panel schemes available now.

Should you install solar panels on your roof?

Having solar panels installed on your roof is obviously on a much smaller scale. That's not to say having a smaller solar panel system installed at your home will not provide you with any benefits. You can reap the financial rewards for the next 25 years. The government's Feed-In Tariff system can also earn you up to  $\pounds 7250$ .

How do I finance a solar PV installation?

The most cost-effective way to finance the installation of solar PV panels is to pay in full using your own savings. If you're unable to pay upfront, you could consider a loan or remortgaging.

How much does a solar panel installation cost?

The average residential solar panel installation consists of either 12 or 16 solar panels. The average cost of a solar panel installation in the UK is between  $\pounds 5000$  and  $\pounds 8000$ . If you have three people or more living in your home, then most professional solar panel installers will recommend you install a 3kWh solar panel system.

Do you own solar panels?

You OWN the solar panels. Under these schemes, you pay for solar panels over a fixed period, say 20 years. There are no upfront costs, and instead you pay a monthly fee, which usually covers the solar panel and battery installation, repairs and maintenance.

Are solar panels worth it?

The pros of solar panels are immense, and if you can afford the upfront cost they are absolutely worth getting. With solar panels, the average three-bedroom home will save  $\pounds 454$  a year on their energy bills. And if you're exporting excess electricity to the grid via the SEG, you'll make an additional  $\pounds 160$  per year.
