What is a capacitor market?

The capacitor market is a semi-consolidated market. The market is competitive with the presence of various large-scale manufacturers in the market across the globe. The capacitor market has long-standing established players who have made significant investments.

What is the growth rate of the capacitor market?

The global capacitor market is expected to grow at a CAGR of 6.5% from 2018 to 2030. The market growth is attributed to the increasing demand for capacitors in various applications, such as industrial, automotive electronics, consumer electronics, energy and others.

What are the key factors affecting capacitor market growth?

The market growth is attributed to the increasing demand for capacitors in various applications, such as industrial, automotive electronics, consumer electronics, energy and others. In terms of type, the ceramic capacitor segment is expected to hold the largest share of the global capacitor market during the forecast period.

Who are the major players in the capacitor market?

The capacitor market is semi-consolidated, with major players like Murata Manufacturing, TDK Corporation, and KEMET Corporation leading the charge through strategic collaborations and product innovations.

What is the capacitor market size in 2024?

The Capacitor Market size is estimated at USD 25.21 billion in 2024, and is expected to reach USD 33.57 billion by 2029, growing at a CAGR of 5.90% during the forecast period (2024-2029).

What are the key drivers and restrictions affecting the capacitor market?

Here are some key drivers and restrictions affecting the Capacitor market: Electronics Industry: The rapid growth of the electronics industry, including smartphones, computers, and consumer electronics, drives the demand for capacitors used in electronic circuits.

The Capacitor market size, estimations, and forecasts are provided in terms of sales volume (K Units) and sales revenue (\$ millions), considering 2023 as the base year, with ...

Highlights of The Capacitor Market Report: The market structure and projections for the coming years. Drivers, restraints, opportunities, and current trends of market. Historical data and ...
