

Consumption tax exemption for lead-acid batteries

Are battery energy storage systems exempt from VAT?

Battery Energy Storage Systems (BESS) were also exempt but with the condition that they must be installed alongside other energy-saving materials, such as solar. However, in a statement released on 11th December, the UK government made a noteworthy announcement--retrofitted BESS will now also be exempt from VAT.

Will the government grant VAT relief on energy storage batteries?

In a much-needed move towards energy efficiency, the government has unveiled plans to grant VAT relief on the installation of energy storage batteries. This welcome move extends far beyond the previous VAT relief policy, which was limited to batteries installed concurrently with solar panels.

Why has the UK extended tax relief on battery storage systems?

"It's fantastic that the government has extended tax relief on battery storage systems. The expanded VAT relief aligns with the UK's commitment to reducing carbon emissions and promoting green energy solutions.

Are solar batteries tax deductible?

Batteries can be used as a standalone technology, installed as part of a solar PV system or retrofitted to existing solar panels. Thanks to the upcoming tax reforms, all three types of battery installations will be exempt from VAT from February 2024. We are Contact Solar: trusted UK solar panel and battery storage specialists.

Will a VAT cut increase demand for home battery energy storage?

"The cut in VAT is exceedingly welcome and we have every expectation that it will increase demand for home battery energy storage," said Chris Hewett, chief executive of trade association Solar Energy UK. "By allowing solar power to be used after dark, it can double the savings offered by home solar power systems.

When will 0% VAT on battery storage installations come into effect?

The upcoming 0% VAT on battery storage installations will come into effect on 1st February 2024. The exemption will apply to homes across the entire UK. Other ESMs have also been added to the VAT exemption list, including water-source heat pumps and retrofitted immersion diverters.
