

# Domestic battery extended warranty

What is the warranty on my home battery?

The minimum warranty for all the batteries we install is 10 years. Some offer extended warranty cover. Details of individual product warranties can be found in the product details. Where can my home battery be installed? All of our batteries are fully IP rated for internal, or external installation.

Are GivEnergy batteries backed by a warranty?

All GivEnergy batteries and inverters installed and fully commissioned by UK Green Energy Installations will be backed by the 12 year warranty. All systems must be: Fully commissioned and installed by UK Green Energy Installations (a certified GivEnergy Installer). Receive a health check every 5,8 and 10 year period.

What products does the GivEnergy 12 year warranty cover?

The new 12 year warranty covers: In a nutshell, the warranty covers any GivEnergy residential battery storage system installed from 11/09/2023 - no matter which specific battery and inverter model are fitted.

How long do home batteries last?

Home batteries tend to be pretty robust. No-one has a crystal ball, but the well-made batteries will last at least 10 years. The really high quality ones should last as long as 15 years. Warranty periods generally vary from 5 years to 10 years. However, what the warranty document says about degradation is key.

Are batteries covered by a warranty?

Batteries used in a commercial or professional application, such as taxis, driving instructors, emergency services, works vehicles, etc., are not covered by the full term of the warranty but instead come with a 6 month warranty. How does the guarantee work? The guarantee covers any manufacturing defects which arise within the guarantee period.
