

# Hanoi Energy Storage Duty Officer

What does an energy officer - Vietnam do?

The Energy Officer - Vietnam will work closely with P4I's Energy Lead based in the Bangkok program office and P4I staff working for different delivery partners, the Australian Embassy Hanoi and DFAT to drive P4I's energy program through fostering stakeholder relationships with relevant government entities and officials in Vietnam.

Will P4i guide energy programming in Vietnam in 2025?

P4I recently undertook a high-level energy design to guide energy programming in Vietnam through P4I over the coming 18 months to December 2025.

What does a P4i energy officer do?

Based on these relationships, the Energy Officer will support development and implementation of P4I's energy programming. The role supports the Australian Government's priority of developing sustainable, inclusive, and resilient growth in Southeast Asia through the development of quality infrastructure.

We support the transition towards modern energy systems that can simultaneously ensure economic growth, energy security, and environmental sustainability. ...
