How much does a solar & battery system cost?

The average cost of a 3kWp solar panel system for a typical property with two or three bedrooms is about £9,000, including installation. This jumps up to around £11,000 if you're adding a 5kWh battery. This is a great time to get a solar & battery system, as there's currently 0% VAT on both panels and batteries.

Why are solar panels so expensive?

However, the cost of solar panels varies based on output, warranty, and efficiency. While they come with a high price tag, higher-output panels generate greater amounts of electricity. As a result, they're more cost effective than less powerful panels, especially if space is limited, as fewer panels can produce more electricity.
