

# Install solar photovoltaic and get money

How much money can you save with solar panels?

The average home can save more than £1,100 every year with solar panels! There are several solar panel grants and incentives currently available in the UK, aimed at reducing the cost of solar panels, your households' energy bills and encouraging the adoption of renewable energy. How much could you get?

Should you invest in solar panels?

You can get free electricity with solar panels, which can significantly reduce your utility bills. Plus, you can make money by exporting spare energy to the National Grid. Whether or not to invest in solar panels is a decision that should be made carefully, and we recommend you get advice from a solar expert.

How much does it cost to install solar panels?

You can usually expect to pay between £300 for each day of solar panel installation. Usually, there will be two people installing your system, which comes to around £600 per day. Solar panels are usually installed on your roof in a single day, but larger systems will often take more than one day to install, which can cause labour costs to climb.

How do solar panels earn money?

A large portion of potential solar panel earnings comes from the government's generation tariff, which is part of the Feed-In Tariff (FIT) scheme. Under the generation part of this scheme, you receive a fixed rate of income for each kWh of electricity you generate.

How are solar panels installed?

We use a safe and strong installation method that uses friction to hold the rail and the edge of the solar panel securely in place. This system has been tested for heavy rain, hail and even hurricanes, so you know it's reliable. The panels are then laid on top of the rails, ready to be connected.

Do you own solar panels?

You OWN the solar panels. Under these schemes, you pay for solar panels over a fixed period, say 20 years. There are no upfront costs, and instead you pay a monthly fee, which usually covers the solar panel and battery installation, repairs and maintenance.

How much energy you could produce with solar panels - and therefore how much money you could make or save - will depend on: the size of your roof (the area you ...
