

# International Energy Storage Summit Launched

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. One scenario estimates Europe will reach 29.6 GWh of installed capacity by the end of 2024, marking a 72% increase YoY.

When is the energy storage global conference 2025?

The eighth edition of the Energy Storage Global Conference (ESGC) will take place on 14 - 16 October 2025 in Brussels. Latest insights on energy storage policies, markets and technologies and applications. Networking opportunities during the conference, as well as during our dinner events.

What is the 8th Energy Storage Summit?

The 8th Energy Storage Summit, Europe's largest event on energy storage innovation, investment and policy, is here to help.

Why should you attend the Energy Storage Summit?

Over the past ten years, the Summit has gained recognition as the biggest, busiest, most informative, and best networking event in the European energy storage sector, where deals are made on site; generating efficient business for everyone who attends. Workshops, an after-party, private networking dinners and much more!

What is the energy storage global conference (ESGC)?

The fifth edition of the Energy Storage Global Conference (ESGC) was held on 11 - 13 October 2022 and gathered over 365 onsite and online participants representing EU and national policymakers, utilities, DSOs, TSOs, suppliers, consultancies, the research community and National Regulatory Authorities.

Why should you attend the energy storage event in 2023?

After a record-breaking event last year, join the 8th edition in 2023 where the growing opportunities for energy storage across the renewable sector are expanding.

IBESA is the leading B2B networking platform for the global battery and energy storage industry with contacts along the entire value chain. Skip to content +49 228 504 35-0; ...

The Energy Storage Global Conference (ESGC) is back! The conference's fifth edition will be held on 11 - 13 October 2022 and is organised by EASE - The European Association for Storage ...

"Battery storage-- especially grid-scale storage--is an essential piece of the decarbonisation puzzle," Granholm said, noting that for the US alone to reach net zero, between 1.5TW to 2.5TW of energy storage power
