

# Legal Solar Photovoltaic Services

Who are our energy project and renewables solicitors?

Our energy project and renewables work is partner led and supported by an experienced team of solicitors who understand the sector, and benefit from legal input from the firm's other specialist sectors and services. For specialist advice from experienced renewable energy solicitors, please contact Ed Rimmell on 0117 314 5232.

How do I get planning permission for solar panels?

For legal consultation regarding solar panel installation and receiving planning permission for your property, get in touch with the expert Residential Conveyancing Team at Howells Solicitors at 02920 404020 or submit an enquiry. [Can I Legally Install Solar Panels Myself?](#)

Can I Sell my solar panels if I don't have a professional installer?

In short, yes. However, forgoing the help of professional installers will impose a number of additional legal responsibilities on yourself. MCS-Certifications are required for your solar panels when you choose to sell your property with the panels included.

Will there be VAT on solar panels in the UK?

No, there will be no tax on domestic solar panels in the UK until at least 2027. It was announced by ex-Chancellor Rishi Sunak that the VAT on energy efficient systems within the home should be cut from 5% to zero as of April 2022, until 2027.

Are solar panels tax-free?

Income generated under the new SEG scheme is still tax-free, although the significant reduction in payments compared to the Feed-in Tariff still impacts the amount of profit that can be made from domestic solar panels.

Can I install solar panels on my property?

If your property is situated in a conservation area, it may be possible to install solar panels under Permitted Rights. However, if the panels are to be installed such that it would be visible from a highway, a planning application and consent from the local authority will be necessary.
