

Lithium battery shipped from Windhoek

Can I ship lithium ion batteries abroad?

Send Products Containing Lithium Ion Batteries Abroad Safely and Securely If you need to ship products containing lithium batteries internationally then PACK & SEND can help you to package your equipment securely and ensure that the shipment is compliant with regulations wherever you are sending to.

Are lithium batteries rechargeable?

Contact your local store for more advice and information. There are two main types of lithium batteries: lithium-ion (Li-ion) batteries, which are rechargeable; and lithium metal batteries, which are non-rechargeable.

What happens if you transport lithium batteries overseas?

When you transport lithium batteries overseas they are classified as hazardous materials. This will mean that not all shipping companies will be able to handle them as it is very important that they are packaged and labelled correctly.

Are lithium batteries safe to ship?

These tough restrictions exist because lithium batteries can contain high levels of energy and if they short circuit during transit they can produce heat. What's more, if the casing is damaged, then the internal chemical components can catch fire and this obviously has serious safety implications for shipping.

Who is probe batteries?

Known for supplying the Complete Power Package with a focus on batteries, starters and alternators, Probe represents world-class batteries and branded auto-electrical components. We represent the trusted OEM brands including Borg Warner (Delco Remy), Prestolite (Leece-Neville), CE Niehoff and Horton.

Can I send lithium batteries on my own?

THIS WILL ALMOST ALWAYS MAKE IT UNECONOMIC TO SEND LITHIUM BATTERIES ON THEIR OWN. For deliveries of shipments with lithium batteries included in the equipment to an overseas destination - be they laptops, mobile phones or more specialist equipment - trust us to get your shipments to their destination without the risk of problems arising.
