

Paris lithium battery replacement

Do you need a lithium battery repair?

Lithium battery repairs gives broken batteries a new life. If you notice a significant drop in the performance of your devices powered by lithium batteries, such as reduced runtime or slower charging times, it could indicate underlying issues that need attention.

Who is UK battery repairs?

Welcome to UK Battery Repairs, where expertise meets excellence in lithium battery repair solutions. As specialists in the field, we offer top-notch services encompassing repair, storage, and logistics.

Where can I buy a replacement battery?

For example, Heskon is a major supplier of replacement batteries to dealers and Fiets Accu Revisie is the part of Heskon that sells direct to customers. The UK's Electric Transport Shop network offers battery diagnosis (refundable against a replacement battery or recell if required).

Why should you choose UK battery repairs?

At UK Battery Repairs, we offer lithium battery repair services to maximise environmental and economic benefits. Our team specialises in extending the lifespan of your electric bike's lithium battery through expert repair techniques. By opting for repair instead of replacement, you reduce emissions and save money. Experience sustainability with us.

Where can I get a replacement battery for an electric bike?

Typically you can get a replacement from your local dealer, but in some cases you may need to contact the e-bike company directly. The same goes for electric bike kits. Always check with the electric bike kit company for replacement batteries for their products. What if the original retailer is no longer in business?

Are Cytronex lithium bottles compatible?

The UK's Cytronex produces both European and US spec lightweight kits which use a unique own-design of 'bottle battery'. Cytronex says all their lithium bottles are compatible forwards and backward from the first version in 2017.

Lithium batteries are a lot more power dense than lead acid or AGM batteries, so this means that a replacement lithium-ion battery of the same capacity will be much smaller ...
