Which rechargeable batteries should I buy?

For a busy household that's always pressing play, consider a larger set of rechargeable batteries to avoid quarrelling. HiQuick offers eight rechargeable AAAs complete with a universal intelligent battery charger that can recharge depleted batteries in three hours. Each one offers 1100mAh of power.

Are rechargeable batteries worth it?

If you own any such device, it's probably worth investing in some rechargeable batteries: They perform better, cost less in the long run, and are better for the planet than disposables. Most modern AA and AAA rechargeable batteries are made with nickel metal hydride (NiMH), as opposed to the nickel cadmium (NiCd) batteries of decades past.

Are rechargeable batteries better than disposable batteries?

Better for the environment, better value over their life span and, often, more powerful, rechargeable batteries are typically better than their disposable equivalents. It used to be that rechargeable batteries suffered from high battery drain, losing a considerable amount of power while sat idle, which made them unsuitable for many jobs.

What is the best rechargeable battery pack?

The Panasonic Eneloop Pro rechargeable battery pack is the perfect starter kit for those in need of rechargeable batteries. Not only are they some of the best batteries available on the market, but this kit comes with AA, AAA, and C and D cell batteries and a charger at a really good price.

Are rechargeable batteries good for the environment?

If you're using rechargeable batteries in one or more of your household devices, you're already helping the environment: Most rechargeables (like the ones we recommend in this guide) can be reused hundreds of times, whereas a disposable battery is headed for a landfill after one use.

Are rechargeable batteries better than alkaline batteries?

Rechargeable batteries are more cost-effective over time, better for the environment and more shelf-stable than alkaline batteries. That being said, alkaline batteries do have certain advantages, such as their upfront price.
