

Solar Photovoltaic Funding

Are there solar panel grants in the UK?

There are solar panel grants for homeowners in the UK, from Smart Export Guarantee to zero VAT. Read about solar panel funding options & how to apply!

Can I get funding for a solar PV system?

Funding for solar PV systems is only available if applied as part of a package that includes a heat pump, solar PV, and an energy storage system. You can get a maximum funding amount of up to £6,000 to install solar panels, which includes a grant of £1,250 plus an optional loan of £4,750.

Are there government grants for solar panels?

There are no government grants specifically for solar panels, but are more steered towards improving energy efficiency. All is not lost, though, as some grants can be used to install them as part of energy efficient upgrades.

What does a solar panel grant cover?

Solar grants often only cover specific solar energy system components such as solar panels, inverters and installation costs. Battery storage or advanced monitoring systems are typically excluded from these funding programmes. How much can I save with a solar panel grant?

What is a solar electricity grant?

The Solar Electricity Grant administered by the Sustainable Energy Authority of Ireland (SEAI) provides one-off grants towards the purchase and installation of solar panels for homes. To qualify you must:

- Be the owner of a home built and occupied before 2021
- Use new materials and products that were not already covered under another grant scheme
