

The difference between magnets and battery packs

What's the difference between Apple MagSafe & Anker battery packs?

Let's take a look at the similarities and differences of both battery packs. For the Apple MagSafe Battery Pack, Apple has made the color choice for you, so you better like a white back for your iPhone. The only color here is white. Of course, for the Anker your only choice is black.

How does the MagSafe battery pack work?

Here's how it works. Apple recently released its MagSafe Battery Pack for the iPhone 12 series of phones. It simply attaches magnetically to the back of your iPhone 12 series phone for easy charging. You can also use it as a desktop MagSafe charger, and can even charge the battery pack using your iPhone using reverse pass-through charging.

How much power does the Apple MagSafe battery pack have?

Even though the Apple MagSafe battery pack is, of course, an official MagSafe product, when it's attached magnetically to your iPhone 12 it is only capable of 5W of charging power. If you plug in the battery pack you will see the 15W of MagSafe charging speed.

Can I use the Anker PowerCore magnetic 5K battery pack?

You can also use it as a desktop MagSafe charger, and can even charge the battery pack using your iPhone using reverse pass-through charging. The Anker PowerCore Magnetic 5K battery pack is compatible with the MagSafe iPhone 12 series of phones, although the battery is not officially MagSafe.

What's the difference between Apple battery pack & Anker battery pack?

The Apple battery pack has a matte plastic finish, while the Anker has a rubberized plastic finish. Both should be fairly grippy and prevent accidental slips. Apple's MagSafe Battery Pack is a typical seamless Apple design, with no power button and no LED lights -- nothing but a Lightning port for charging.

How do I Charge my iPhone with MagSafe battery pack?

Charge your iPhone on the go: Place MagSafe Battery Pack on the back of iPhone or its MagSafe case or sleeve. The charging symbol appears when iPhone starts charging. See the battery status of MagSafe Battery Pack and iPhone: Check the Batteries widget in Today View or on the Home Screen.
