

The largest capacitor manufacturer in Eastern Europe

Who makes capacitors in Germany?

With its three German production sites, ELECTRONICON is the largest capacitor manufacturer in Germany. The company employs around five hundred qualified engineers and skilled workers in its production facilities, producing capacitors for lighting, motors and power electronics applications.

Where are capacitors made?

Capacitors have been developed and manufactured here in Eastern Thuringia since the late thirties of the last century. ELECTRONICON is a globally recognized specialist in high-quality capacitors for power factor correction, harmonic filters, energy transmission, drive technology and DC links, as well as many other AC and DC applications.

Who is Secom capacitors?

SECOM is an official ELECTRONICON capacitors distributor for all industrial applications, in particular for capacitors relating to power electronics. ELECTRONICON is one of the world's leading capacitor specialists for power factor correction, harmonic filtering, traction, DC connection and many other AC and DC applications.

Why are capacitor manufacturers important?

Most older companies were founded during the AM radio era, which includes the World War II era and post war era. As the demand for advanced electronics continues to grow, the role of capacitor manufacturers becomes increasingly vital, supporting crucial domains like consumer electronics, power systems, automotive technology, and telecommunications.

Where is Iskra capacitor factory located?

The company is headquartered in Slovenia (Slovenia) in the capital city of Ljubljana (Ljubljana), the factory is located in Slovenia (Slovenia) in the beautiful city of Semic, ISKRA capacitor business unit has 670 employees, the production of capacitor products in the plant area of 26,000 square meters.

What is a capacitor & how does it work?

A capacitor is a passive device on a circuit board that stores electrical energy in an electric field by virtue of accumulating electric charges on two close surfaces insulated from each other. This is a list of known capacitor manufacturers, their headquarters country of origin, and year founded.

ELECTRONICON is a globally recognized specialist in high-quality capacitors for power factor correction, harmonic filters, energy transmission, drive technology and DC links, as well as many other AC and DC applications. With its ...

The largest capacitor manufacturer in Eastern Europe

Europe's largest modular home manufacturers are based in the United Kingdom and are led by TopHat, whose current production is about 4,000 houses every year ...

ISKRA MIS (Akfa Electrics S.A.) was founded in 1947 and is one of the largest capacitor manufacturers in Europe. The company is headquartered in Slovenia (Slovenia) in ...

Yiyang ZhongYu Technology Electronic Co., Ltd. is a professional manufacturer of high quality aluminum electronic capacitor, founded in 1998. Our company is located in Longling electronic ...

ELECTRONICON is a globally recognized specialist in high-quality capacitors for power factor correction, harmonic filters, energy transmission, drive technology and DC links, as well as ...

In the GDR, the company was nationalized and expanded to become the leading capacitor manufacturer in the entire Eastern Bloc. And even after the difficult years of changes in ...

Europe High-End Capacitor Market size was valued at US\$ 1.23 billion in 2024 and is projected to reach US\$ 1.68 billion by 2030, at a CAGR of 5.3% during the forecast period 2024-2030. ...

List of the top electronic capacitor manufacturing companies in the world, listed by their prominence with corporate logos when available. This list of major electronic capacitor ...

Through continuous extension and improvement of the range, Electronicon has become one of the leading capacitor manufacturers in Europe. Qualified employees and extensive ...

ELECTRONICON is one of the world's leading capacitor specialists for power factor correction, ...

This is a list of known capacitor manufacturers, their headquarters country of origin, and year founded. The oldest capacitor companies were founded over 100 years ago. Most older ...

Murata. Murata is the world's leading capacitor manufacturer, with products including ceramic capacitors, aluminum electrolytic capacitors, tantalum capacitors, etc. ...

ELECTRONICON is one of the world's leading capacitor specialists for power factor correction, harmonic filtering, traction, DC connection and many other AC and DC applications. With its ...

Browse through 54 Manufacturer producer in the capacitor manufacturer industry on Europages, a B2B platform for finding worldwide partners.

...ELECTRONICON has successfully risen to become one of the leading capacitor manufacturers in Europe with global supply relationships through continuous expansion and improvement of ...

The largest capacitor manufacturer in Eastern Europe

With its three German manufacturing sites, ELECTRONICON is the country's largest capacitor manufacturer. Over 40 years of experience in metallizing papers and films are as crucial to ...
